

Landscape Design Consultation Checklist

To help us design a landscape that perfectly fits your needs, take some time to consider these questions:

1. Usage and Lifestyle:

- How do you plan to use your outdoor space (e.g., relaxation, entertaining, gardening, children's play area)?
- Do you have pets that will use the garden?
- Do you need space for outdoor furniture, grills, or fire pits?
- Would you like a lawn, or do you prefer a low-maintenance alternative?

2. Aesthetic Preferences:

- Are there specific garden styles you admire (e.g., formal, natural, modern, cottage garden)?
- What color schemes do you prefer in your landscape?
- Are there specific textures, materials, or elements (stone, wood, water features) that you'd like to incorporate?

3. Maintenance and Sustainability:

- How much time and effort are you willing to dedicate to garden maintenance?
- Do you prefer drought-tolerant or native plants?
- Are you interested in sustainable landscaping options (e.g., rain gardens, permeable paving, composting)?

4. Environmental Factors:

- Do you experience strong winds or other microclimate conditions that could impact plant choices?
- Are there existing trees or features that should be preserved or removed?
- How does water drain on your property? Are there areas prone to standing water?

5. Hardscape and Functional Elements:

- Do you need pathways, retaining walls, or fences?
- Would you like to incorporate lighting for aesthetics or security?
- Are there existing structures (decks, patios, sheds) that need to be considered in the design?

6. Privacy and Screening:

- Do you need plants or structures to block views from neighbors or reduce noise?
- Would you like to create secluded areas within your yard?

7. Wildlife and Pollinators:

- Are you interested in attracting birds, butterflies, or bees?
- Do you want to avoid plants that attract certain insects or animals?

8. Accessibility and Mobility:

- Do you need wheelchair-friendly pathways or other accessibility features?
- Would raised beds or container gardens help with accessibility?

9. Long-Term Plans and Budget:

- Do you want to phase the project over time, or complete everything at once?
- How long do you plan to stay in your current home?
- What is your long-term vision for the space?
